Just The Right Year!

DEDICATION

Mrs. Carol Martin

The class of 1987 is pleased to dedicate its yearbook to Mrs. Carol Martin. It was during our sophomore year that she became one of our advisors. For the next three years she proved herself invaluable in helping with various activities such as proms, fundraisers and the powderpuff game. She has always been there, a committed advisor as well as a dear and caring friend. She has been willing to stay after school for however long she was needed, and was always coming up with new ideas and suggestions for the class officers. A great part of the success of the class of 1987 is directly attributable to the efforts of Mrs. Martin. Our class was fortunate to have had the opportunity to work with her and share our memories with her.

SENIOR CLASS ADVISORS

Mrs. Carol Martin
Mr. John Amaral
Mrs. Joanne Haggerty

When we entered Attleboro High School four years ago, it was as very scared, very inexperienced freshmen. Through the years, we have grown as a very successful, spirited class.

We are very grateful to our three class advisors for all the help and support they have given us along the way. First there was Mr. Amaral, who was later joined by Mrs. Martin and Mrs. Haggerty. Together they have made an invaluable team.

The Class of 1987 would like to thank each of you for your many long hours of service and dedication. The good times that you have made possible will never be forgotten.

Thank you!

The Class of 1987
Colleen Wade, President

Just The Right Year!

Dear 1987 Graduate,
you are cordially invited to your fifth year reunion . . . . . .

Oh Wow! Has it been five years already? It doesn't seem like it has been that long. I wonder what my friends look like now. I certainly remember how they looked in 1987.

What a year that was! How excited everyone was to be seniors - the leaders of the school. Finally we had the chance to leave our mark on the school.

We left behind more spirit than any other class in Attleboro High School's history, because we dared to be different. Though separate in our thoughts and ways, we were together in our spirit. All of our activities were carried out with teamwork and with support. Because of our successful fundraisers we were able to add a touch of class to all of our social events. The proms were first rate, and the Senior Reception was so euphoric, everyone was half asleep by the time the Breakfast had begun.

Hope to see you there to help us remember 1987 . . . . .

"Is this Katherine Gallivan or Eddy Van Halen?"

"Watch out Rambo, here comes Psycho."

The class of "87" is made up of many individuals who have shared four of the best years in life. We met each other as freshmen in Western Civ., Earth Science, and Exploratory. From that start, each of us chose our path; some chose academics, others chose business. Whatever choice was made, it seems we would all come together for gym classes every other day. And this year as seniors we surely will have fun in senior lounge and Contemporary Affairs.

Over the years there were many favorites and whether it be Accounting, Biology, or Vocational classes, everyone seemed to get along and have a good time. I'm sure we would all like to thank our teachers and our fellow classmates for helping us make it through the good times and the bad times. Now we, once again individuals, will part to the most important class of all, the classroom of life.

Hands-on training and experience

The vocational department, which has provided a most important service to the students of Attleboro High School, continues to be a major element of the curriculum of the school.

Vocational studies provide hands-on training and experience in any of the occupational courses offered. The main goal of the occupational department is to prepare students for gainful employment and to produce responsible members of the community.

From past results, it is evident that the occupational department has successfully attained its goals and will continue to do so in the future.

Fads and fashions

Remember Freshmen year? It was after the summer that we all saw the movie "Flash Dance". So, it was only natural for ripped sweatshirts and tank tops to become "in", putting the preppy look to an end once and for all. Hairstyles stayed to basically the same. Feathering was still in, after all, who would be brave enough to change, certainly not a freshmen.

Sophomore year, we became a little bit trendier with the appearance of the "Madonna" style Lace stockings, lace tank tops, and lace hair bows became the new things to wear. Madonna had started a trend that was even apparent at our Sophomore Gathering. Mini prom dresses trimmed with lace were worn by all the girls making the gathering more of a formal affair. An idea whose time had come and which was to be carried on by the underclassmen to follow.

What was to come Junior and Senior year? Well, let's just say that we did our own thing. Chances were taken and hair was shaved, spiked and jelled. Pants went tight, shirts and sweaters went big, and just "Guess" what happened to jeans? Hawaiian surf shorts and shirts became every day wear, so that when spirit week came around Hawaiian Dress Up Day was no more. Last but not least, were our precious Reeboks. Where would we be without a them? White, black, red, and pink, they came in practically any color maginable. What will we think of them in twenty years?

Throughout our years at the high school, our sense of style has changed drastically. Styles have come in as fast as they've gone out, but it is certain that there's one thing that will never go out of style at A.H.S., and that is anything that is blue and white.

Underclassman on the wall?

Cheryl Gariepy and Shelly Gravel enjoy the salad bar in B_2.

B2

B2 cafeteria to the students at AHS, has many qualities that set it apart from the others. For the seniors, it's their second home; a place to do the last minute studying, catch up on the latest gossip, socialize, perhaps get a date for the upcoming weekend, and last but not least get that bite to eat that carries us through the day.

When senior year rolls around the respective class takes over "THE WALL"; the structure that separates the men from the boys, the women from the girls, and the seniors from the underclassmen. Who would ever think that a stack of cinderblocks coated with paint would be the reward for seniority. For those freshmen meeting in B3, sophomores gathering in the Resource Center, and juniors assembling at the back of B2, a little patience and a lot of hard work will grant them not only the title "Senior," but rights to "The Wall" as well.

Every year B2 leaves memories of good times and special happenings and will hopefully continue to be the place that keeps the student body together for many years to come here at A.H.S.

Rena Pike and Michele Morgan show us their pearly whites!

What's up dude?

The end- relief, or disappointment?

I think that we all have a similiar feeling towards being a senior. It's a feeling of relief, yet it's also a disappointment.

Being in the last year of high school is a relief in the way that it's a considerable accomplishment. There has been a lot of hard work put into school by students and teachers, especially in high school. It has paid off and now we begin to make effective choices and gain independence. I know that eventually people get to an age, which is now for most, where there is a need for independence and the need for the ability to live as you want.

The end of high school is also a disappointment for certain reasons. Everybody has to make the frightening decision of what they are going to do next. Whether it be continuing education, working or even starting a family, it is a major decision. Twelve years of learning and growing with these familiar people is suddenly coming to an end.

I hope that everyone can look back on these years with a smile. All of the students of the class of 1987 may seem apart at times, but I hope that we are all friends. I wish everybody happiness in the years ahead.

Just The Right Year...

for 87' SENIORS!

Bottom L to R: President, Colleen Wade, Treasurer Kirsten Kerrigan, Secretary Andrea Nunes, Vice-President Crystal Rainville.

Four years ago we opened the doors of Attleboro High School not knowing what was beyond. Now, as we get ready to close these same doors behind us, we have found knowledge, friendship, happiness, and special memories are what we leave.

As freshmen, we organized quickly under the leadership of Mr. Amaral and had a great fundraiser and Social.

Sophomore year, when Mrs. Haggerty and Mrs. Martin joined us, we continued our success with fundraising, ordering class rings, and the Sophomore Gathering.

Last year, as juniors, we organized a great powderpuff team, only to be disappointed by having it forfeited to us instead of winning on the field. The fact that we won the title of "AHS Most Spirited Class" kept us going strong, and we went on to have a great fundraiser and awesome prom.

During our senior year, we have again banded together, retaining the title of "Most Spirited Class." Although we bowed to the juniors in a close powderpuff game, our spirit remained, and for the first time we won the Thanksgiving Day Float contest. The boys on the field worked hard, tying North Attleboro 6-6.

The Senior Prom, held November 21, 1986, at the Sheraton Mansfield Inn, was attended by over 200 couples, showing what a unified class we are. Though there were a few trying moments, a great time was had by all.

Looking to the spring, we have Senior Class Night, our Reception, and Breakfast before Graduation, which will be on June 3, 1987.

I would like to thank our three advisors, Mrs. Martin, Mrs. Haggerty, and Mr. Amaral for all the help and support you have provided us with these past years.

To those who have been officers and representatives of the class, especially Crystal, thanks for all your organization and dedication---our success can be attributed to you.

To the Class of 1987, thank you for four great years. When we close the doors to Attleboro High School for the last time, we will look back, smile, and be proud of our accomplishments. At the same time, we will look ahead at new doors---the doors to our future. May each of us find them open, and find individually the success we have found together.

With love,
Colleen Wade
Senior Class President

To the Class of 1987, thank you for four great years. When we close the doors to Attleboro

Freshman Social

FRESHMAN SOCIAL

On May 18, 1984 we had our first class function, the Freshman Social Because we were in our first year together and just getting acquainted, the theme, "Hello" was very fitting

Held in B1 Cafeteria, the Social was a fun night where everyone could dance on the lower level to music and a great light show provided by the DJ.

When not dancing, most were sitting on the upper level enjoying pastries and punch provided by Culinary Arts.

The night flew by and everyone had a great time. Our Freshman Social was a great beginning to our high school fun as a class.

Sophomore Gathering

After hours of decorating, the Elks Golden Antler Room seemed a perfect setting for our sophomore gathering. All the plans had been made and that Friday May 3rd, the class "gathered" together for a great time.

Everyone was seated around 7:30 and a chicken dinner was served. Soon the D.J. began playing music and the dancing started. Morris Day and the Time's "chicken dance" was very popular and about half way through the night couples joined for our theme song, Madonna's "Crazy For You." The rest of the night was spent dancing and socializing.

At the end of the night a small group remained to clean up the broken balloons and fallen streamers. The room was bare, once again, and yet our heads were filled with everlasting memories.

MaryAnne Southwick and her date take a break to enjoy time with their friends.

Sue always has a friendly smile.

It's awful hard to dance to this song!

Junior Prom

An April [illegible] was filled with excitement over the upcoming event. Tickets had been bought, gowns fitted, and tuxes rented for our first formal event. At 6:30 on Saturday night couples started arriving at Demetri's Convention Center and were greeted by video cameras, classmates, and class advisors.

After signing the guestbook, many couples joined the long line for pictures. Dinner, with a main course of roast beef, was served at 7:30 and was followed by hours of dancing to the music of 'X-Dreams'.

The band played our theme song, 'Thank You,' by Led Zeppelin; the queen and her court were announced, and the cake was cut. Everything was more exciting than anticipated. At 12:00 the favors were passed out and everyone departed. All in all, when the sun rose on Sunday morning, all that attended had many fond memories of the magical night that had past.

Having a great time!

The Queen's Dance

Senior Prom

The class of 87 went all out for its second and final formal event. The week of the prom flew by and around 6:00 on Friday, November 21, 1986 over 200 couples excitedly departed for the Sheraton Mansfield. Once there, everyone waited for the doors of the ballroom to open and their evenings to unfold.

Around 7:30 p.m. the buffet was arranged and people were sent, by table, to serve themselves. Unfortunately, the last few tables were shorted. Any empty stomachs were soon forgotten when the Greg Greenaway Band began to play favorite music and the dancing began.

Although the theme song, Loverboy's "Heaven In Your Eyes", was not played, a little piece of heaven could be seen in the eyes of everyone there. It was a bit saddening to see this event come and pass so quickly, yet, just the same November 21, 1986 is one evening that will never be forgotten by those who attended.

ART

Art class means enjoyment to all, and alot of thinking. Our art program works around the idea of problem solving. This sets us apart from many other art programs. Rather than feeding the students answers, the art teachers encourage them to work towards the answers. This skill of problem solving is critical to those pursuing an art career and also to those who find a different direction.

Through working with an array of materials, both 3 dimensional and 2 dimensional, the art student experiences a large scope of what art is, and can be. Teachers encourage experimenting and love new ideas. Hand made paper is just one example of a successful experiment. Many students have won adwards at the Annual Boston Scholastic Art Awards because of their paper making past.

Art's Night, each April, gives the students and teachers a chance to show parents and the community what they've accomplished. Students learn what it is like to display their work as a professional artist would, and also take pride in Art's Night. Art's Night could never be if it wasn't for the enthusiasm which happens in the Art class.

Automotive repair is a shop that is very demanding. With changes in automotive design and construction, a mechanic must be aware of recent updates. There is a great deal to learn in this field, but if you put your mind to it, it can be very profitable. Theory is an important part of auto shop. Staying updated with the most recent developments in the automotive industry will help in production repair. The hands-on experience you get helps to insure a good foundation for a job as an automotive technician.

BUSINESS

The most interesting course I have is accounting. Mr. Walinski just livens up the class with his humor. The class is just as interesting in the sense that it consists of all types of students. All things given, it makes a class that I don't want to miss.

The humor which is produced in the classroom affects all. Each understands the routine of Mr. Walinski, and interprets it in their own way. He turns the slightest mistake of one of his prey into humor that reaches everyone.

Learning also appeals to me in this class. It is so exciting to learn how to record, apply laws, and make money. The anecdotes that Mr. Walinski tells us, apply to the lesson and furthers your understanding beyond the textbook. All these characteristics make him a very good teacher, and he's a great guy.

The class is great and one I don't want to miss. I wish I'd had him earlier in my school career because he would have influenced some of my career and course choices. The class is motivating, stimulating, and an overall great learning experience.

Carpentry is a shop in which you learn the art of construction. Not only do you get to work in the shop, you also get on the job training. For example, we are working on an addition and reroofing a house.

Mill carpentry is mastered in the first year of study. You learn the skill of machine operation. Cabinet making is the main focus of study in the second year of carpentry. You also learn how to finish off your work. In the third year you go in to house construction, which consists of framing, roofing, siding, and other skills of the trade.

So if you are interested in working in a wood-working field as a career, take up carpentry! ! !

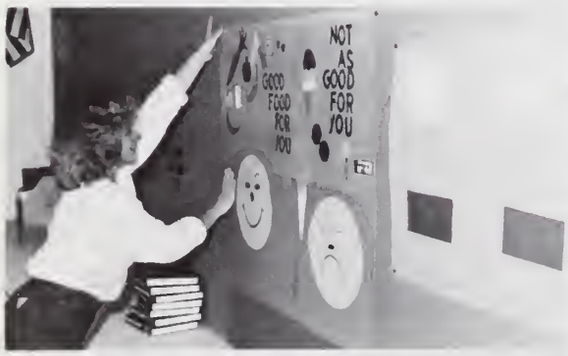
CHILD CARE

Seniors: (1 to r)- Diane Charron, Denise King and Donna Lemieux.

Most likely to succeed: Donna Lemieux.



Donna and Denise enjoy a light moment during class.

The Child Care and Guidance Vocational Course prepares one for future studies in Child Care and Guidance, motherhood and parenting, early childhood education, child psychology, and other childhood studies.

From the reactions of the other students, including myself, the most enjoyable part of the course was the Nursery School. From February to May we ran a nursery school for twelve children from the Attleboro area ranging in ages from three to four. They would come in three days a week for an hour and a half and we prepared daily lessons for the children. Organization and preparation skills were enforced and used each day. A complete schedule was prepared, and ready for their arrival. Such planned activities were circle team, freetime, snack time and activity time. All events and activities were connected with developing their fine and gross motor skills. Things such as manners, sharing, teaching colors, counting, textures, and the five senses were only a small number of the things being taught. Another advantage of the course is you are there for two and a half hours, forming a close relationship with the other students and the teachers

Throughout the rest of the year we did studies on children from birth until the beginning of their teens. We visited other nursery and elementary schools, volunteering our services, and receiving a great deal of experience. The studies were difficult, but the knowledge and experience received was very interesting and enjoyable.

COMMERCIAL DESIGN

Commercial Design helps to prepare one to be successful in college and the outside world. It's a more technical and precise method of drawing and is an exciting vocational course in which you learn something new everyday.

We have many good times, but it's not all fun and games. It's a particularly unusual environment to work in. It's extremely comfortable for students and visitors are welcome to come in. Everyone takes time to let them feel at home.

We all must have open minds and extraordinary imaginations and our teachers must have patience with us. I love drawing and having a class that is so caring and fun, but even though there are lots of laughs, there is also lots of hard work.

I'm involved with the Culinary Arts Program. Each day I spend four out of seven periods there. The Culinary Arts department is broken up into four different areas. The Chef's side is where we prepare foods such as soups, sandwiches, entrees, and burgers. The food is then served in another section called the Chandelier Room. In this room, the students in the program wait on faculty or any visitors who might be at the school. The bakery is the section in Culinary Arts where pastry is made. Different kinds of pastry that we make are brownies, french pastry, cookies, cakes, breads, and rolls. The final area is the Culinary Store. It's in this area that the checks from the Chandelier Room are paid. We also sell coffee and pastry to faculty and visitors here.

ELECTRICITY SHOP

I like electricity shop because it is the basis for what I want to do in life. Electricity is really interesting because we learn about relays, transformers, circuits, and wiring. We are even taught how to wire up a house!

In electricity, we occasionally take field trips to places where we can be exposed to electrical operations rather than a classroom or shop setting. These field trips are very interesting and better our understanding of how electricity is used. In electricity, we prepare for college, technical school, or for an immediate job in the electrical field.

At the end of every school year in electricity, each student donates some money and we have a shop party or cookout. Electricity involves a group of kids working together who are from different backgrounds, yet are good friends. It doesn't seem like school work at all, instead, it is a fun learning experience.

In 1789, Samuel Slater started what we now know as the Industrial Revolution. We now have another revolution in our mists. This is the Electronic Revolution.

In the Attleboro High School's electronic's department they are preparing us for this happening and for our future. We are taught in a relaxed atmosphere, with modern, high-tech equipment, and two outstanding teachers with excellent backgrounds in this field. All the students in this program are will adapted to all phased of electronics, including analog, digital, micro-processors, repair, circuit assembly, and basic engeneering.

We have all had our trials and tribulations but with the help of the teachers and administration, I feel we are now ready to enter the electronics market. But is it ready for us?

At Attleboro High School there are many English courses available, but there is one course that not many students are aware of. This course is called Television Production. T.V. is part of the English Department and is offered to all students, grades nine through twelve. Like gym, it is taken on an off day schedule, and is a 2½ credit course. Mr. Victor Genest is the teacher of the class which is located in the Resource Center in the television studio.

During the year, one begins by learning the history of the television and then moves on to the actual production of television shows. Once inside the studio, one learns to operate the equipment. Jobs such as being an editor, operating a VCR and studio cameras, and also the character generator are all included in this course. Once all of the above is mastered, one then learns to operate the porta-pack, which is just like it's name, a portable camera. This type of camera is held on one's shoulders, and is used for any shot outside the studio.

This course is a great deal of fun and very educational. It helps one overcome shyness and improves diction. One could only say one other thing about this class: "Lights, camera, and action!"

FOREIGN LANGUAGE

The Foreign Language Department has a diverse selection of languages. Students have the opportunity to take up to four years in any language being offered.

Learning such languages as German, Latin, French, and Spanish can be both fun and beneficial. Students can look to the teachers in this department for their support and enthusiasm toward the language. Ms. Paiva, Mr. Camire, Mrs. Hart and othes all portray such characteristics.

While taking any of the above languages, students are taught about the cultural and geographical aspects of the country.

During class, students learn vocabulary, grammar, create sentences and questions, all of which increase in difficulty with each additional year. Participation in class is very important. The more the language is spoken, read or written, the more enjoyable and easier it becomes to understand. Most students find that taking a foreign language is a pleasant and interesting experience.

To bring about even more interest in foreign languages, a trip is offered each year to European countries. In past years students have traveled to England, France, Spain, and many other countries.

Out of all the vocational shops, I think that Graphic Arts is the best. This shop shows us how items are copied or printed from an original copy to the final printed piece. There are three major sections of Graphics. First there is the stripping process, which is preparing the negatives from the original copy, and making the plates for the press. Then, there is the press operation. The last section of Graphics is the bindary cutting, gluing, and stapling.

I have been in Graphic Arts for three years now and I have learned specific and detailed techniques in printing, which will help me in a future career. To me, it is an exciting job to work with printing machines. I hope to have a job running presses when I finish my high school career.

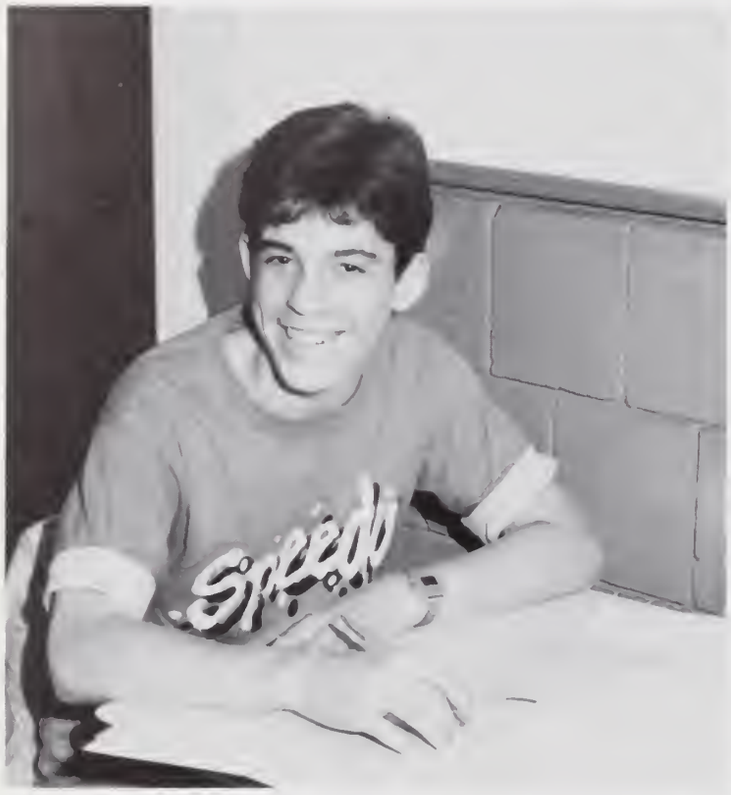
GUIDANCE



A show of satisfaction from the guidance he has received.

Linda Mitchell and Mr. Kessel discuss important matters.

Anxiously awaiting the arrival of their guidance counselor.

The guidence depertment of the high school is one of the most importent perts of the school. Rather then teaching a certain subject, the guidance department shows students how to put to use what they have learned throughout their four years. The guidance counselor helps the student decide what to do in life after high school.

Through my own experience, I would like to give recognition to Mr. Billingkoff of House I. I hed meny difficulties in scheduling my clesses for my senior year but with the help of Mr. Billingkoff, I wes able to fit in the classes of my choice. Mrs. Cuoco in House III hes elso helped meny students just by her pleasant personality. I em sure thet those two people end all the other hard working people of the guidance department will continue in helping students through the years.

MACHINE DRAFTING

In Machine Drafting, we apply industrial theories, practices, and skills to our drawing assignments as if we were working in industry. The Machine Drafting course provides knowledge and experience so one can enter the drafting field after he or she graduates. It also provides the basic elements to enter a college engineering program

The things I like most about the course are the skills I've learned, and how it improved my abitity to understand complex machinery and how it opened a whole new field of work for me. The only thing I like least is that I couldn't start in my freshman year.

After high school I'm looking forward to going to college and entering a program of aerospace engineering. From there, I hope to get an engineering job, where I will continue to use those skills I've learned in Machine Drafting.

The main goals of machine shop are to prepare the students to seek profitable employment and to make them become responsible members of the community.

During this three year course, students are taught basic and advanced methods of blue-print reading. They are also taught precision machining, theories and the use of various machines such as milling machines, numerically controlled milling machines, electrical discharge machines, and many types of grinders. The students can also gain more advanced information by a cad-cam system, which is a new way of machining, using a computer.

If the machine shop students' grades allow them, the school can also place the students in jobs, during the school year. Once the course is completed, the students will receive signed certificates of completion for finishing the course. This will help the students obtain their future goals.

After leaving high school, the students will benefit from having many entry level skills. They will also have the opportinity to continue their education in the field at the post secondary level.

Janis Wightman

At Attleboro High School there are many different academic course to take. There are the basic courses such as: English, Science, and Math, but my favorite is band.

In band, we are taught the basic concepts of music, such as composers, meter and measure of lines, and notes. Outside the classroom, the band performs at football games, parades, and concerts, where we play music by various composers like Bach and Beethoven.

During the football season, we get together on Wednesday nights to put a field show together which we perform during half-time. The spectators really get into the A.H.S. spirit when they see us performing and hear our music.

The band is like one big family. I noticed this when we raised the money to take the trip to Montreal, Canada. The closeness and friendships that were formed during this trip are everlasting. I won't miss all those cold practices, but the games and activities will be remembered forever.

Being involved with the band, under the excellent instruction and caring friendship of Mr. Caron has given me a higher incentive to go out and accomplish many things.

MATHEMATICS

"Now that's funny!"

Margaret DelPapa-Department Head.

Deep thought required for this problem.

Last year I took Algebra II and enjoyed it. I not only enjoyed it for the academic challenges, but also because the teacher was an excellent teacher. The main reason I enjoyed Algebra II is because of the open class atmosphere and freedom of speech . . . . not the freedom of talking at will, but the freedom to challenge the teacher and to discuss problems in the class.

Fellow students, Steve Hagerty, Tracy McCann, Tracey Roll, Koren Sword, and Wally Rosher made Algebra II a lot of fun. Granted, there was a lot of hard work, but it was great because the teacher wasn't a tyrant and there was a relaxed atmosphere. If a class is enjoyable and the students are fun, it makes for a pleasant learning experience, which was my Algebra II class last year.

The organized office has a faculty of three qualified nurses who are equipped with sufficient medical supplies in case of any emergencies. Personal problems are also handled with care, and helpful, friendly advice is readily available.

Along with medical help, the nurses, along with members of the Student Council, helped students quit smoking on November 20, 1986, the day of the National Smoke-Out. The health department is concerned with the overall health of the students at A.H.S.

The Resource Center also contains a career awareness computer system to give students an opportunity to explore different career fields. The Resource Center is based on a fast and easy card catalog system and Mrs. Nerney, the school librarian, is always ready and willing to help in finding your materials. Photocopying equipment is also available for the student's use. Whether you are writing a book report, an essay, a term paper, or simply looking for an interesting book for reading, the Resource Center is an organized way to help all of your needs.

SCIENCE

Science is a major course of study at AHS. Whether one takes a science simply to fulfill the graduation criteria or as a prospective student in the field, there is quite a diverse selection of courses from which to choose. Biology, Chemistry, and Earth Science may serve as the basis for further study in Mr. Dentch's physics class, Mr. Ferry's physiology, or for those of us brave enough, Mr. Frederick's Biology II A.P. course. Whatever the subject, you're sure to "enjoy" many double periods in the Science laboratory gazing into a microscope, mixing chemicals, measuring force, or maybe even dissecting a cat! Term papers and lab reports also help add to the excitement found so often in each of these classes while enlightening students on the procedures and techniques employed in scientific research. Studying science provides many answers and provokes many more questions in an inquisitivie mind. It helps students to understand and explain the physical and chemical occurances around them. And in a time when progress is one of the main objectives, scientific advances and technological breakthroughs are of primary importance.

SOCIAL STUDIES

Smile for the camera-P.T.

The class which I feel is one of the most important is Social Studies. Its main purpose is to develop a self and social awareness through studying our heritage and the past. The key to a successful future is to understand the past.

Knowing the impact which your ethnic background has had on the rest of the world gives you an unparalleled sense of pride. Few opportunities match the feeling of knowing you can trace your being to far away lands and having the knowledge that a piece of you belongs there.

The United States is a medley of many different traditions and cultures. It is exciting to discover which ideals and traditions your own ancestors brought from their homeland. Generations have always had and will always have the curiosity to uncover their history. Wouldn't you want you grandchildren or great grandchildren to know and appreciate your society?

Tech Drawing is a class which teaches students the basics about the fields of architecture and drafting. It involves drawing objects to different scales, and also from different viewpoints, while using different architectural tools. It teaches students neatness and precision, which are characteristics important to any field.

I enjoy tech drawing because it is both interesting and challenging, and because it involves many different types of students, learning in a relaxed atmosphere. Mr. Messier is a nice, patient teacher, and he helps to make the class fun and educational. I would recommend this class to anyone interested in the drawing field, and feel it is well worth taking.

CROSS COUNTRY

Coach Steve Newman

Senior Mike Shelton begins to open his stride.

"Watch out, I'm right behind you!"

The 1986 Cross Country team improved greatly over the season. Through the help of tri-captains Rick Crawford, Jay Martin, and Tina Kelly, the Team went on to win the Seekonk Invitational. But, more importantly, the team felt a togetherness that grew as the season went on. More than anything, Cross Country is a team sport, and everyone works together as a team. Because of this closeness, strong friendships are formed that last outside of Cross Country.

Coach Newman led us to a very successful season that everyone can be proud of. He was always there when we needed him. He was interested in us as human beings, not just runners. This interest gave us the motivation to do our best. Next year the team will be led by captains Scott O'Connel, Joe Alburquerque, Brian Frigon, Kelly Keim, and Stacy Holander. The spirit and depth of the team that existed this year will continue to grow next year.

"The Scoring Threat dribbles up the field."

Although our season had a late start, we had a week of camp behind us which helped us to have an even more successful season than we expected. Our season also proved to be one unlike anyother. It was our first season with a male member of the team, we got a new coach, and we came from within one game of going to the State Tourney, which is the closest we have come in five years. Not only were we a strong team, we were a team of togetherness and spirit which also helped greatly for our success. We hope that next years team will be a winning team and keep in the field hockey spirit!

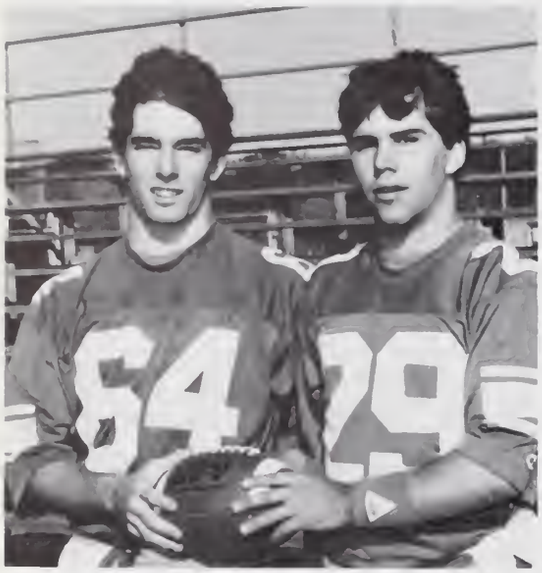
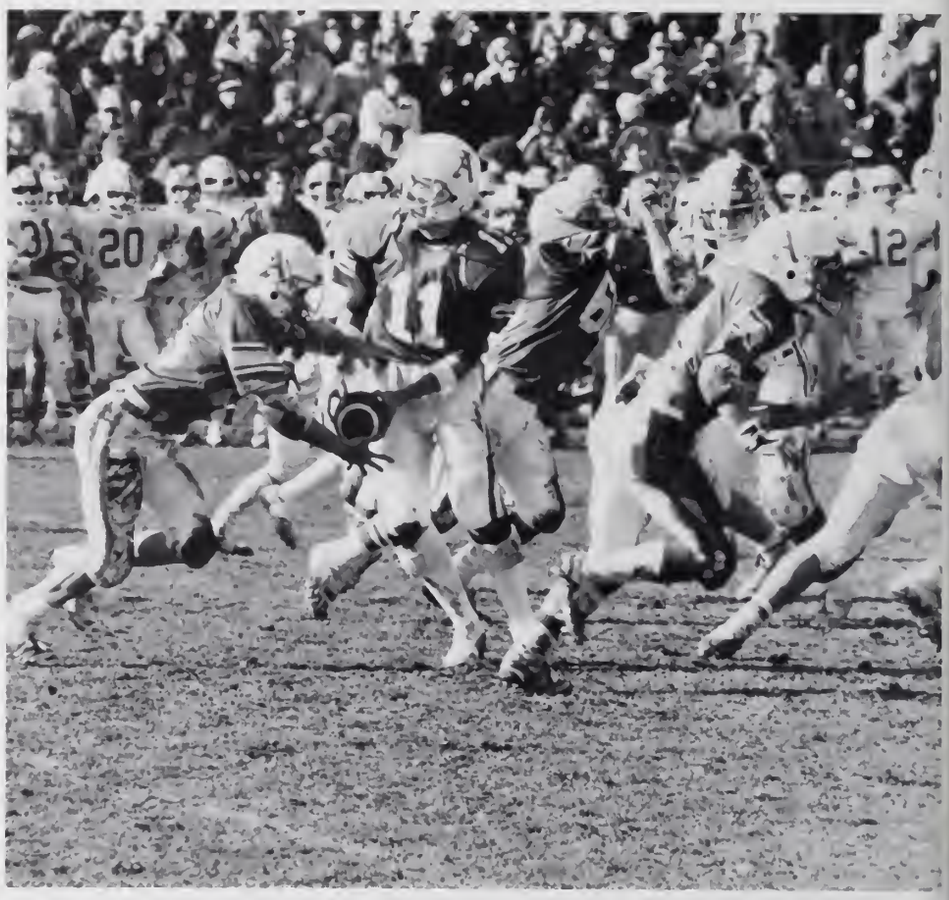
Football



Co-Captains: Jim Reynolds and Kevin Candelet



The 1986 football season was a great success even though we did not have an outstanding record. All the players had a lot of fun and pride. The coaches gave us all the confidence we needed. We would like to think that one thing the team never did was give up during a game, especially during the win over Feehan and the tie against North. We would like to thank all the fans and student body for all the support that they gave us through out the season. It really helped to pick us up when we were losing. As for next year, the team should be able to hold their own. There are many talented underclassmen who should be good, because of the amount of determination and the heart they have. Good Luck next year!!!

Boys Gymnastics

None of us on the gymnastics team this year knew how well we would do. There were only four seniors on the team, but a lot of talented underclassmen and even some freshmen gave us high hopes for another successful season. And sure enough, with the talented and dedicated coaching by Mr. Martin and Don Gauvin, we grew to be a strong force in the league. Tim Fonseca and I have enjoyed our four years on the team and especially this past year, serving as captains. During halftime, Coach Pereira prepares the team for their upcoming victory.

Although our season was not as successful as we had hoped, we had a strong, spirited, and unified team. Coach Pereira gave us unending support, which was especially helpful in all of those games that were decided by a goal. As a team, the breaks weren't always with us, but we did send four players to the all-league team, and one to the honorable mention all-state team. The senior members of the team had an exceptional year with the help of many talented underclassmen. We wish next years co-captains Steve Rodrigues and Jason Parenteau the best of luck and for the team, a successful season and a dominate one!!!

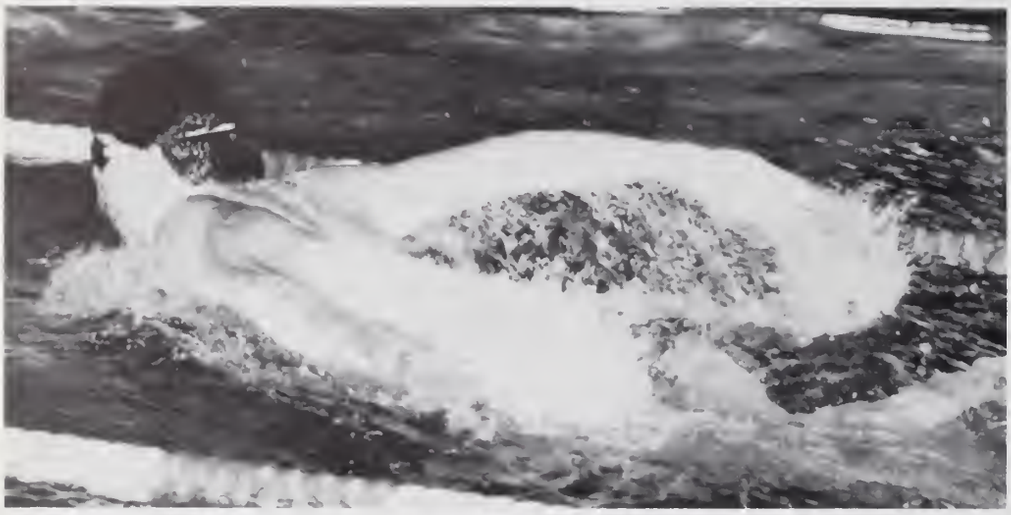
Boys Swimming



The boys swim team entered their season with high hopes for a .500 season. Their hard work was evident because they came off to a fast start, beginning with a 4-0 record. Seniors Pat O'Donnell and Steven Hagerty were strong forces for the team, while the juniors proved to be unbeatable. Although this year's team didn't have any freshmen members, the team feels that next year will be full of skill and ability to "outswim" the rest.

Girls Swimming

This year's swim team had a very good season in spite of our loss of last year's Seniors, some of whom were event winners. Our underclassmen carried the team through our 9 and 2 season. We really enjoyed our season, but not only because it was a winning one. We have great team spirit and unity. Every girl on the team is allowed to compete in almost every meet, giving them a sense of loyalty to the team. We work together, and we win. Next year should be a terrific season. The team is losing only two Seniors and the underclassmen are already carrying the team. With our winning spirit and ability we should continue strongly.

Although this year's volleyball season wasn't as successful as in past years, we were a strong and spirited team. All of us fought hard throughout the season and even though it was a tough and long battle, we never gave up. Our underclassmen proved to be a strong base for the team and the seniors continued to be a dominating helping hand. Together the team played as one. We hope that next year's team will be very successful, not only in winning, but in spirit.

"Thank God it's almost over!"

The 1986-1987 Boys Winter Track Team started off slowly, while the Girls Winter Track Team started off strong, and through the guidance and support from our coaches, Mr. Newman and Tammie Payette, we led ourselves to many victories. They helped us stick together and pull through no matter what the consequences were.

The Winter Track Teams Annual Jog-a-Thon, our fund raiser, was a great success. Seventy out of a hundred finished the 10 mile course. The Boys Team ended up the season with a 5-3 record, with the Girls Team right behind them with a 4-4 record.

A Special Athlete

Dedication, training, and special effort is what gives Attleboro High School student, Tom Hicks, the motavation to be the the best.

Tom has been training and competing for the Special Olympics since he was 8 years old. And his hard work has paid off. For two consecutive years, Tom has been victorious, competing in the Massachusetts Special Olympics pentathalon in Boston. Tom is now training for the International Special Olympics Summer Games which will take place next July and August at Notre Dame University and St. Mary's College in South Bend, Indiana. This will be a very special event for Tom because he is the only one in the Attleboro Area entering the Summer Games and he is 1 out of 10 entering from the state.

All of us here at Attleboro High School know that Tom will come back from the Summer Games victorious. And with that victory, he will carry with him a special meaning to the word athlete.

Good Luck Tom!!

Our Sophomore year has been a new and different experience. When we were freshman, we felt out of place in the High School, but receiving our class rings this past year makes us feel like we're really a part of Attleboro High School. As the year progressed, our entire class grew closer together, making our Sophomore Gathering, one to remember.

As our Sophomore year comes to an end, we grew even closer. Our fund raiser was very successful and we look forward to starting our junior year.

A couple of weeks into the school year, we elected our officers who were: Vice-president-Jill Amaral, Secretary-Matt Cochran, Treasurer-Chris Bridges.

Soon after that, we began to construct our float, which proved to be quite a challenge to us all. Thanks to all the people who made this possible.

I've really enjoyed being the president of the class this year and helping out with school activities. We are also looking forward to our Freshman Social to be held on June 5, 1987.

Close-Up is an organization that gets 10, 11, and 12 graders to get involved with their government. This is done by attending seminars for a week in Washington D.C. Students are given the opportunity to meet their congressman and learn how the government works while also having fun in our nations capital. This program helps young people understand this crazy world of ours. Many new friendships are made while learning about the country.

Foreign Exchange Students

The last thing that I was worried about when I left Spain to come to America was how different it would be from there. Also how hard it would be for me to adapt myself to this completely new culture and that of the U.S.A. is what really makes this year such a fantastic experience for me. I can promise everyone that I will never forget the people nor all the good things that I have learned about American culture. I will treasure sharing the year with my host family.

Thanks everybody,
Juan V. Regolf

Hello, my name is Virginie Jeanin. I come from the south of France. I came to the United States to study and learn the American Education.
Since I've been here I've enjoyed my stay. Attleboro is a friendly, happy place. I've met a lot of nice people and have made some excellent long lasting friendships.

My host family the Blackwells are super people. They are very kind and helpful and helped make me feel right at home. I thank them for that!

My year here at Attleboro, with all my new experiences; from every walk of life - has been fun!! I thank everyone who has made it that way!

And also wish the class of 1987 good luck in the future.

Sincerly, Virginie.

The first thing I would like to say is that I really enjoyed studying and living in America.

The American High School is very different for me. And it has been somewhat difficult. Learning english has been very hard. I will make the effort to learn it.

Attleboro High School is a very good school. We have good teachers and good friends. I appreciate the politeness of my American class-mates. Even though I will return to Brazil, I will always remember this experience.

Frederico Costa Filho

It's been lots of fun to go to A.H.S. I'm so glad I came here. There are many kinds of people that there's no certain way to live. You have more choices on everything. We're expected to study all the time over in Japan. I found little difference between Japan and the U.S. since it is very Americanized. I guess it doesn't matter where you are as long as you have good friends.

I'd like to thank all of my friends, helpful teachers and my host family who is the best one in the whole world. Special thanks to my friends in the band, chorus, and A Cappella who have made my American life a great one. I'll miss you so much when I go back in March to go back to school. In Japan, the school year starts in April. I'm sure I'll come back here again. See you then.

June Kitanaka

I am very happy that I have been able to come here and spend a year in your high school. The people and the school are so different here compared to Sweden. It has been an experience I will never forget. The thing that meant most to me is that you can participate in so many different activities in school. I would like to thank my friends, the teacher, and the guidance counselors who have made this year such a great year for me. SWEDEN RULES!!!

Thank You,
Johan Noren

This article is a description of a foreign exchange student (that's me), his life in home country, West-Germany, and his life in America.

Born on April 2, 1970 (Birthday cards are always welcome), I grew up in a very unusual town: West-Berlin, democratic island in the middle of communistic East Germany, two million people surrounded by the wall. But a town with a lot of life, spirit, and fun. Without that it would probably break down.

In all the years, I enjoyed my life in Berlin. But sometime somehow I decided to do something different and so I got involved in international student exchange and applied for being a foreign exchange student to America. But why Attleboro?

Well, if I would have had a decision, I would probably spend this year somewhere in Florida, southern California, or Hawaii.

A family that wanted to have a foreign exchange student would apply at the same organization, gets some information about several students and then picks one of them. So I ended up in Attleboro with the LaFerrieres. And I think I was lucky to get in this family.

In the first weeks I had to find out how to spend all my time that I had available suddenly. So I joined the Attleboro High Soccer Team. That made things for me a lot easier. I met kids and made some friends even before school started and most important, I had something to do and no time to get homesick.

Then finally, with some days delay, the first day in school was there I felt almost like a six year old kid, that waited all his short life for that first day of school, but after a while I realized that school means the same everywhere.

In those first days, I had trouble remembering all those names of all those new people, I think you can understand that.

But now that there are no big problems anymore, I am having a good time in and out of school.

So, I will stay here the remaining eight months having a lot of fun with all of you until the sad moment comes to say good-bye. But hopefully I will see some of you again!!

Clemens Heilmann

My name is Anita Jensen, and I came from Bergen, Norway. I'm staying here in Attleboro for 10 months as an exchange student.

Attleboro High is different from my high school in Norway in many ways. We can't pick the subjects we want in Norway, and we don't have school sports. Besides that, I just love all the activities you have here like pep rallies, spirit week, powderpuff etc. I've never seen anything like the school spirit at Attleboro High in Norway.

The first day of school I was really nervous. It seemed so huge, and I was afraid I'd get lost! But the kids here have been great!!! I've made lots of good friends, I'll really miss when I go back.

I can't believe I've already been here for 3 1/2 months! Being an exchange student has been a neat experience so far. I haven't only learned a lot about the U.S.A. and the people here, I've also learned a lot about myself too. Of course I get homesick sometimes, but usually I'm too busy with school, sports, and friends to even think about it.

Last, I want to thank the people that have made this one of the best years of my life: my host family, my friends, my teachers and everybody else. You're all WICKED AWESOME!

All my love, Anita

THE ATTLEBORO ELKS # 1014

We the class of 1987 wish to thank THE ATTLEBORO ELKS #1014 for their continuous cooperation throughout our graduating year. Their generous gift of our Senior Class Breakfast and free use of their hall, help to defray the cost of our Senior Class dues. This special occasion will always remain in our memories.

We would like to give a special "THANK YOU" to THE ATTLEBORO ELKS #1014 for their scholarships.

Erin Geddes and Beth Kenniston

To the Class of 1987:

"Just the Right Year" has come to an end. We have now completed our Senior year at A.H.S., and we are about to enter the difficult world in which we live.

We all share the common experience of being a part of the Class of 1987. This book holds the memories of our past four years at A.H.S. and it is designed to make us remember the fun and excitement of our Senior year.

Our yearbook would not have been possible without the patience and guidance of our advisor, Mr. Frederick. Mr. Frederick always had the solutions to our many difficulties. He has not only been an advisor, but a dear and caring friend.

In addition, we would like to thank our Josten's representative, Mr. Dan Smith. His knowledge and creativity proved to be a great asset to our book. Also, this year's staff would like to thank our T.D. Brown photographer, Gary Melino. Due to his flexibility and imagination, we were able to present our class at its best, along with our staff photographer, Richard Field, who solved difficult situations when Gary was unavailable and to Brian Goudreau, who designed the creative cover of this volume of Tattletale. It helps us to carry out our theme with imagination. To the faculty, thank you for your understanding and cooperation. You were always patient with the inconveniences of our productive schedule.

Thank you to all those seniors who helped us out: essayists, typists, proofreaders, and everyone else who gave a helping hand. Your contributions make the book more personal to the class by reflecting the individuals who helped make up the "Most Spirited Class", the *Class of 1987.*

Tattletale Editors 1987-
